DESIGN FOR THE HUMAN RHYTHM

AMBIENT SENSORY R&D LAB

CONTENTS

SLEEP & WAKE-UP SYSTEMS

Circadian lighting, sunrise simulators, and smart alarm solutions.

(Q20, Q19, Q18, Q17, Q16, Q15, Q14, Q13)

ATMOSPHERE & AMBIENT LIGHTING

3D interstellar projections, portable lanterns, and architectural soundscapes.

(Q12, Q11, Q10, Q9, Q8, Q7, Q5)

SENSORY & MICRO-CLIMATE MONITORING

Professional weather stations and sonic-mist humidification systems.

(Q6, Q4, Q3)

KID'S GROWTH & SAFETY SERIES

Offline educational devices and portable infant soothing companions.

(Q2, Q1)

The Resonance of Being.

We have always believed that the ultimate goal of design
is not the accumulation of features, but a profound empathy for the individual.

Our purpose is simple: to let technology retreat, so that life may prevail.

It is the gentle wake-up that respects your rhythm; the light that breathes with you in the deep of
night.

It is the honest feedback of a switch beneath your fingertip, and the subtle shift of the sky sensed
from within.

We use rigorous geometric logic to tame the complexity of digital systems.

Not to be seen,
but to silently shield your senses in every fleeting moment.

FOCELON

DESIGN FOR THE HUMAN RHYTHM

Q20 - FOLLOW ME ULTRA ALARM CLOCK

Alarm
Clock

Sound
Machine

Ambient
Light

Power Input: DC 5 V / 2 A
Speaker Output: 4 Ω 3 W
Material: ABS
Dimensions: 170 × 169 × 90 mm

Weight: 373 g
Light Effects: RGB Rhythm and Sunrise-Sunset Simulation
Language Support: 8 Languages (EN / DE / FR / ES / IT / CN / JA / KO)
Features: Hourly Chime, Quiet Time Mode, DST & Time Zone Auto-Adjustment

Base color

THE DESIGN PHILOSOPHY

We wanted to create a smart clock that speaks your language and honors your silence.

With an 8-language interface and DST & Auto Time Zone adjustment, its 3-button UI naturally guides you through every setting—no manuals needed.

From sunrise wake-ups to sunset sleep aids with calming white noise, it features RGB colors for every mood.

With hourly chimes, a “Do Not Disturb” mode, and an adaptive eye-care display that follows the day’s natural light, it ensures your day has rhythm and your night has peace.

Q19 - FOLLOW ME PRO
ALARM CLOCK

Alarm
Clock

Humidity
Monitor

Power Input: DC 5V / 2 A
Speaker Output: 4 Ω 3 W
Material: ABS
Dimensions: 86 × 94 mm

Weight: 187 g
Language Support: 8 Languages (CN / EN / ES / FR / DE / IT / PT / JA)
Features: Hourly Chime, Quiet Time Mode,
DST & Time Zone Auto-Adjustment

Base color

THE DESIGN PHILOSOPHY

We wanted to create a smart alarm clock that speaks your language and respects your silence.

With 8 interface languages and DST & Auto Time Zone adjustment, its 3-button UI naturally guides you through every setting—no manuals needed. Beyond its precise temperature and humidity monitoring, it features a baby soother with 30 calming sounds to help your family find their inner calm. With thoughtful hourly chimes, a "Quiet Time" mode, and an adaptive eye-care display that follows the day's natural light, it ensures your day has rhythm and your night has peace.

Q18 - FOLLOW ME
ALARM CLOCK

Alarm
Clock

Sound
Machine

Temperature

Monitor

Power Input: DC 5 V / 2 A

Speaker Output: 4 Ω 3 W

Material: ABS

Language Support: 5 Languages (EN / ES / FR / DE / IT)

Dimensions: 102 × 89 × 46.5 mm

Weight: 198 g

Features: Hourly Chime, Quiet Time Mode, DST & Time Zone Auto-Adjustment

Base color

THE DESIGN PHILOSOPHY

We wanted to create an alarm clock that works without the headache.

With 3 buttons and an intuitive UI, this clock guides you through every setting naturally—no manuals required.

Supporting 5 languages and DST & Auto Time Zone adjustment, it is a companion for the whole family. Beyond precise temperature and humidity monitoring, it features a soothing sound machine, hourly chimes, and a "Quiet Time" mode.

With an adaptive eye-care display, it ensures your day has rhythm and your night has peace.

Q17 - SUNMOON FADE SLEEP BUILDER

Sound
Machine

Alarm
Clock

Bluetooth
Speaker

Ambient
Light

Power Input: DC 5 V / 2 A
Speaker Output: 4 Ω 3 W $\times$ 2
Connectivity: 2.4GHz Wi-Fi + Bluetooth
Light Effects: Sunrise - SunSet Simulation

Material: ABS + PC + Fabric
Dimensions: 200 $\times$ 168.8 $\times$ 106.7 mm
Weight: 515 g

Base color

THE DESIGN PHILOSOPHY

We wanted to make waking up a dignified experience again.

In a world of constant notifications, we created a sanctuary for your sleep. This is a vessel for both light and sound—stream via Bluetooth or drift off to white noise to ditch the screen. By simulating a "Spring Sunrise," it replaces harsh alarms with a natural rhythm, lifting you from dreams with gradual light and soothing sound.

Rational tech, guarding your emotional peace.

Put down the phone, and reclaim your morning.

Q16 - MOOD COCKTAIL SLEEP BUILDER

Sound
Machine

Alarm
Clock

Ambient
Light

Wireless charging
for Mobiles

Wireless charging
for Smart Watch

Power Input: DC 12 V / 2 A
Speaker Output: 4 Ω 3 W
Wireless Output: 15 W for Mobile Phone
Wireless Output: 5 W for Earbuds

Light Effects: RGB Rhythm and Sunrise-Sunset Simulation
Material: ABS + PC
Dimensions: 180 × 140 × 194 mm
Weight: 550 g

Base color

THE DESIGN PHILOSOPHY

We wanted to turn bedtime into a healing ritual.

Meet your "Mood Mixologist." It blends sleep-tuned frequencies with a soft glow—from a crisp Mojito Green to a deep Margarita Blue—designed to wash away the day's stress.

It guides you to sleep and wakes you gently with a simulated sunrise. We also added a modular twist: the wireless charging base detaches from the lamp, letting you move it freely from your desk to your bedside.

It's rational technology meeting emotional comfort. We're here to brew every ordinary night into a verse of gentle poetry.

Q15 - NATURAL RISE SLEEP BUILDER

Sound
Machine

Alarm
Clock

Ambient
Light

FM
Radio

Power Input: DC 5 V / 2 A
Speaker Output: 4 Ω 3 W
Material: ABS + PC

Light Effects: RGB Rhythm and Sunrise - Sunset Simulation
Dimensions: 172 × 171 × 76 mm
Weight: 325 g

Base color

THE DESIGN PHILOSOPHY

We wanted to help you break up with the jarring shock of being "Startled awake". Since waking is inevitable, there's no need to be jolted out of your dreams. We created this gradual sunrise light to let your eyes sense the morning first, so your body wakes on its own terms rather than struggling through a painful fog.

We want to take the tension out of your daily transitions. Whether you're waking to the FM radio, reading under an eye-easy glow, or drifting off to nature sounds, our light adapts to your rhythm. From effortless voice control to a gentle fade-to-dark, this instinctive comfort is the life we want to give you.

**Q14 - LITTLE SUN
SLEEP BUILDER**

Sound
Machine

Alarm
Clock

Ambient
Light

Power Input: DC 5 V / 2 A
Speaker Output : 4 Ω 2 W
Material: ABS + PC

Light Effects: RGB Rhythm and Sunrise-Sunset Simulation
Dimensions: 164 × 86 × 163 mm
Weight: 300 g

Base color

THE DESIGN PHILOSOPHY

We wanted to put a "Little Sun" right on your bedside. Instead of a jarring alarm, this disc simulates the gradual light of a real sunrise. It lets your eyes sense the morning before you open them. By the time you wake up, your room is filled with warmth, making the start of your day feel natural rather than forced.

We wanted to bring a sense of calm back to your rhythm. Whether tuning into FM radio or drifting off to the sound of rain, everything is built for your comfort. It provides a gentle glow for reading that fades like a setting sun when you're ready for sleep. It's not just a device; it's a companion for your life.

Q13 - HALO SLEEP BUILDER

Sound
Machine

Alarm
Clock

Bluetooth
Speaker

Ambient
Light

Wireless
charger

Power Input: DC 12 V / 2 A

Wireless Output: 15 W

Speaker Output : 4 Ω 5 W

Material: ABS + PC + Metal

Connectivity: 5G / 2.4G Dual-Band WiFi + Bluetooth

Light Effects: RGB Rhythm and Sunrise-Sunset Simulation

Dimensions: 226 × 231 × 103.6 mm

Weight: 718 g

Base color

THE DESIGN PHILOSOPHY

We wanted to create a lamp that restores your "daily rhythm".

We've cleared the clutter with a 15W wireless charger and replaced jarring alarms with a gradual sunrise simulation.

We want to make sleep simpler. Sleep sounds are essentially "boring noises"—they quiet your mind by giving it nothing to think about. With RGB rhythm lights, you can set a 5-120 min timer to "shut down" your brain as the light fades. You can also play your own music via the Bluetooth speaker.

This practical simplicity is the companionship we want to offer.

Q12 - PLEAT GLOW PORTABLE LAMP

Sound
Machine

Bluetooth
Speaker

Ambient
Light

Power Input: DC 9 V / 2 A
Speaker Output: 4 Ω 5 W
Battery Capacity: 2000 mAh
LED Power: 2 W

CCT (Color Temperature): 1800K (Amber) / 3000K (Warm) / 4000K (Morning)
Luminous Flux: 80-100 lm
Material: ABS + PC + Silicone
Dimensions: Φ 114 × 166 mm

Base color

THE DESIGN PHILOSOPHY

We wanted to create a light that "breathes."

It is a vessel for light and sound. Through layered geometry, soft light spills from the crevices, sketching a quiet boundary that shields you from the outside clamor.

It is a lamp, but also a companion. From the resonance of full-range speakers to the serenity of white noise, it offers a transition from physical order to emotional comfort.

Q11 - BASKET GLOW PORTABLE LAMP

Sound
Machine

Bluetooth
Speaker

Ambient
Light

1px65
waterproof

Input: DC 5 V / 1 A

Speaker Output: 4 Ω 5 W $\times$ 2

Battery Capacity: 2000 mAh

LED Power: 2 W

Material: ABS + PC + Silicone

CCT (Color Temperature): 1600K (Flame) / 3000K (Warm) / 4000K (White)

Luminous Flux: 80-100 lm

Dimensions: Φ 115 $\times$ 200 mm

Weight: 466 g

Base color

THE DESIGN PHILOSOPHY

We wanted to create a light that can "breathe."

More than just a lamp, it's a basket designed for light and sound. We used clever optics so that when you turn it on, petal-like shadows bloom across the floor, instantly softening any space.

We want it to go wherever you do. Whether it's sitting on your nightstand as a sleep aid or hanging at a campsite, its three modes—White, Warm, and Flame—always set the right mood. You can play your favorite music via Bluetooth or let its sleep-enhancing features help you drift off.

It's simple, poetic companionship through light and shadow.

Q10 - VINTAGE GLOW
BLUETOOTH SPEAKER

Sound
Machine

Alarm
Clock

Bluetooth
Speaker

Ambient
Light

Power Input: DC 5 V / 2 A
Speaker Output: 4 Ω 5 W $\times$ 2
Battery Capacity: 2000 mAh
LED Power: 2 W

CCT (Color Temperature): 3200 - 3500K
Material: ABS + Silicone
Dimensions: 250 $\times$ 120 $\times$ 87 mm

Base color

THE DESIGN PHILOSOPHY

We wanted to bring a sense of weight back to the daily routine.

We housed a Sound machine , Bluetooth speaker, and night light within this retro-inspired shell—not for nostalgia, but to use a timeless form to carry the logic of modern rest.

From the precise alarm that grounds your rhythm to the tactile damping of every button, every detail is crafted to eliminate the "gadget" feel. It is about optimizing your environment and bringing ritual back to your mornings. Simple, yet profoundly professional.

Q9 - WALL BREAKER
3D COSMIC WINDOW

Fresnel

Adjustability: 270° Vertical Tilt + 360° Rotating Base
Dimensions: 206 × 135 × 96 mm
Weight: 735 g

Ambient Light: Independent Star - Field Green Laser System
Wireless Connection: Bluetooth 5.0 (3D02 Audio Field)
Power Input: DC 19 V / 1.894 A (Adapter supports AC 220V - 240V)
Imaging Tech: 720 p LCD Micro - Projection + 6 - Piece Pro Glass Lens
Built-in Scenes: 60 HD 3D Digital Scenes (Astronomy, Nature, Festive Themes)
Operating Temp: 0 °C - 40 °C (32 °F - 104 °F)

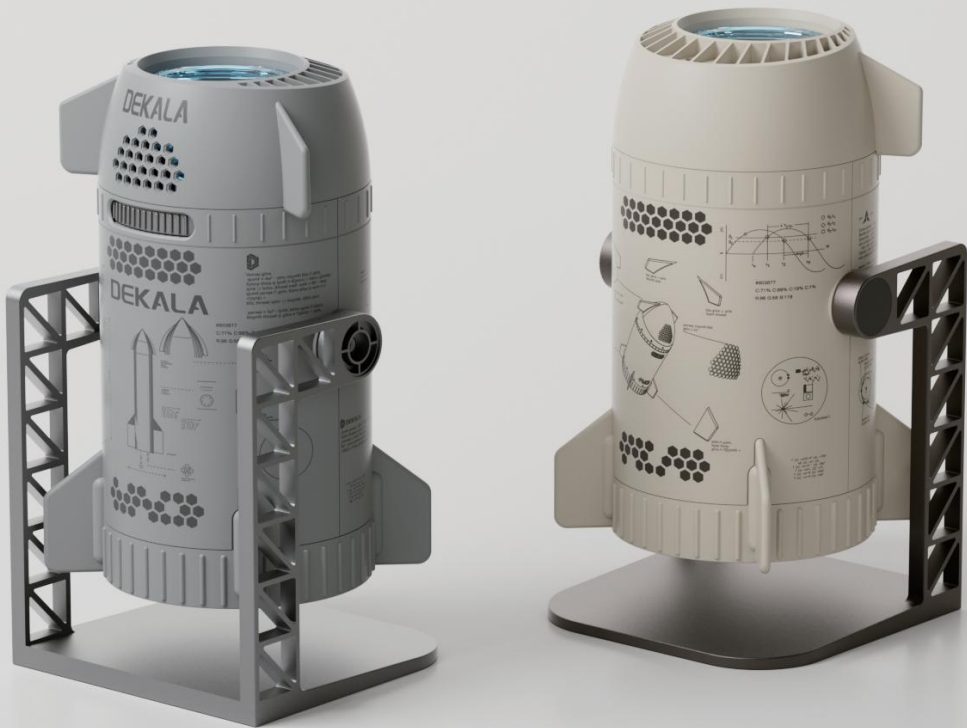

Base color

THE DESIGN PHILOSOPHY

We wanted to create an all-sensory dreamscape that holds the cosmos while embracing the stillness of the night. Unlike traditional projectors with flat, repetitive visuals, we utilize a 3D Depth Optical System with 60 built-in HD scenes to create the illusion of "vanishing walls". The moment power is engaged, your ceiling transforms into a deep portal: witness the pulse of the Andromeda Galaxy or a colossal whale breaching with breathtaking 3D volume. Paired with a 270° flexible tilt and 30 immersive soundscapes, it flawlessly projects the wonders of space, nature, and holiday themes—recreating a weightless, living dream right in your room.

Built-in Scenes: 60 HD 3D Digital Scenes (Astronomy, Nature, Festive Themes)
Operating Temp: 0 °C - 40 °C (32 °F - 104 °F)

Base color

THE DESIGN PHILOSOPHY

We wanted to create an all-sensory dreamscape that holds the cosmos while embracing the stillness of the night.

Inspired by the spirit of space exploration, we reimagined the projector as a futuristic rocket-shaped totem. Unlike traditional projectors with flat visuals, we utilize a 3D Depth Optical System with 60 built-in HD scenes to create the illusion of "vanishing walls".

The moment power is engaged, your ceiling transforms into a deep portal: witness the pulse of the Andromeda Galaxy or a colossal whale breaching with breathtaking 3D volume. Paired with 30 immersive soundscapes, it flawlessly recreates a weightless, living dream right in your room.

Q7 - TICK TOCK
BLUETOOTH SPEAKER

Sound

Power Input: DC 5 V / 2 A
Speaker Output: 4 Ω 5 W × 2
Battery Capacity: 1500 mAh

Bluetooth
Speaker

product material: ABS + PC
Product size: 205 × 64 × 175 mm
product weight: 600 g

Ambient
Light

Base color

THE DESIGN PHILOSOPHY

We wanted to create a nostalgic escape that brings peace to your bedside.

Styled like a vintage CD player, its handle flips into a steady stand. We kept the mechanical toggle switch for that satisfying "click"—a simple way to shut out noise and start your private time.

The rotating disc spins vibrant ripples across your walls like a shimmering lake. It is a warm speaker and a sleep aid in one. Stream your music or simply drift off to the flowing light. Through these tactile movements, we hope to help you find a quiet space in this hectic life.

Q6 - FLICKER MIXER HUMIDIFIER

200ML
BPA FREE TANK

Ambient
Light

Power Input: DC 5 V / 2 A
Speaker Output: 4 Ω 3 W
Material: ABS + PP (BPA-free)

Tank Capacity: 200 ml
Dimensions: 200 × 90 × 130 mm
Weight: 590 g

Base color

THE DESIGN PHILOSOPHY

We wanted to create a "fidget-friendly" box for ultimate relaxation.

It features physical sliders, much like an abacus, with each one controlling a different sound of nature. You can slide the "rain" up or flick the "camp-fire" down; that mechanical tactile feel, blended with your custom soundscape, is pure stress relief.

It's an aromatherapy humidifier and a high-fidelity Bluetooth speaker. With orange flame lights at the top and a soft nightlight at the base, the glow rises with the mist. Stay on all night or set a timer—it's up to you. Just a few simple toggles to carve out a quiet corner in a noisy world.

Q5 - PIANO WIRELESS CHARGER

Wireless

Playing

Power Input: DC 9 V / 2 A

Wireless Output 1: 15 W for Mobile Phone

Wireless Output 2: 5 W for Earbuds

Wireless Output 3: 3 W for Smart Watch

Speaker Output: 4 Ω 5 W

Battery Capacity: 2000 mAh

LED Power: 2 W

Color Temperature (CCT) : 4000K

Material: ABS

Dimensions: 180 × 150 × 90 mm

Weight: 536 g

Base color

THE DESIGN PHILOSOPHY

We wanted to bring a playable "mini piano" to every desk.

It's more than a 3-in-1 charger; it's a tactile, stress-relieving toy. We kept real piano keys with crisp feedback, so you can play a few notes to decompress while your devices power up.

With dedicated spots for your phone, watch, and earbuds, the cable mess is gone. Flip up the "lid" stand and turn on the piano lamp to instantly create a focused, cozy workspace.

It's a speaker, a nightlight, and a touch of romance. While your phone recharges, take a moment to play a little melody of your own.

Q4 - SENSE IT ALL,
HOME WEATHER STATION

Alarm Clock

Weather

Material: ABS + PC

Dimensions: $\Phi 160 \times 23\text{ mm}$

Weight: 335 g

Base color

THE DESIGN PHILOSOPHY

We wanted to bring the rhythm of nature back to your life.

In a world of noise, we've built a Weather Station for your home. More than a clock, it bridges your indoor and outdoor worlds, breaking through walls to bring real-time weather, UV, and humidity right to you.

It tracks sunrise and sunset to keep you in sync with nature. With multi-room sensors, it guards your family's comfort and peace of mind.

Rational technology exists to protect tranquility. Master the weather to plan your day; monitor your environment to give your family the comfort they deserve.

Q3 - SENIOR FRIENDLY WELLNESS ALARM CLOCK

Temperature Unit: °C / °F
Humidity Unit: %RH

Connectivity: 2.4GHz Wi-Fi
Accuracy: Temp: ± 0.5 °C | Humidity: ± 2 % RH
Material: ABS + PC
Dimensions: 182.6 $\times$ 39.72 $\times$ 94.55 mm
Weight: 270 g

Base color

THE DESIGN PHILOSOPHY

We wanted to create a bridge between advanced technology and the intuitive needs of our elders. For many, standard clocks are a source of frustration—small digits that blur without spectacles and jarring alarms that fail fading hearing. We reimagined waking as an experience of clarity and dignity. By pairing an ultra-legible display with a silent pillow vibrator, steady pulses lift the user from sleep gently, bypassing stressful noise.

Rational tech, designed for every stage of life. Clearer sight, calmer mornings.

Q2 - KIDS MOBILE PHONE

Dimensions: 124 × 64.3 × 12.7 mm
Weight: 107 g
Port: Type - C (Charging & Data Transfer)

Base color

THE DESIGN PHILOSOPHY

We wanted to make childhood exploration a safe and joyful experience again.

In a digital world, we've created a pure space for joy. This is more than a device; it is a safe window for growth.

By removing internet risks, we've built 220+ Montessori and STEM games to inspire young minds through fingertip exploration. It is a camera for laughter, a canvas for dreams, and a soothing story machine for peaceful sleep.

Rational tech, guarding innocent hearts. Ditch the screen anxiety and give them a childhood gift you can trust.

Power Input: DC 5 V / 1 A
Speaker Output: 4 Ω 3 W
Battery Capacity: 2000 mAh (60 HRS battery life)

Dimensions: $\Phi 80 \times 36$ mm
Weight: 113 g

Material: ABS covered with fabric + Silicone (Non-toxic & skin-friendly)

Base color

THE DESIGN PHILOSOPHY

We wanted our baby sound machine to bring peace of mind wherever you go.

We know it's hard for babies to sleep in new places. That's why we designed this soother to be lightweight and travel-friendly, featuring effective sounds and a secure child lock.

We wanted it to be more than a device—it's a "safety net" in your pocket, creating a familiar nursery feel so your baby can sleep soundly anywhere.
